Bothalia 39,2

1. New species of <i>Geissorhiza</i> (Iridaceae: Crocoideae) from the southern African winter rainfall zone, range extensions, taxonomic changes, and notes on pollen morphology and floral ecology. P. GOLDBLATT, J.C. MANNING and I. NÄNNI . . . . .	123
2. <i>Albuca crispa</i> and <i>A. grandis</i> (Hyacinthaceae: Ornithogaloideae), two new species of subgenus <i>Albuca</i> , the rediscovery of <i>A. albucoides</i> (subgenus <i>Osmyne</i> ), and the identity of <i>A. reflexa</i> . J.C. MANNING and P. GOLDBLATT. . . . .	153
3. Taxonomy of the genus <i>Keetia</i> (Rubiaceae–subfam. Ixoroideae–tribe Vanguerieae) in southern Africa, with notes on bacterial symbiosis as well as the structure of colleters and the ‘stylar head’ complex. P.M. TILNEY and A.E. VAN WYK . . . . .	165
4. Allioni’s <i>Aloe</i> names (Asphodelaceae): nomenclature and typification. L. GUGLIELMONE, L. GALLO, M. MEREGALLI, G.F. SMITH and E. FIGUEIREDO . . . . .	177
5. The botany of the Cunene–Zambezi Expedition with notes on Hugo Baum (1867–1950). E. FIGUEIREDO, M. SOARES, G. SEIBERT, G.F. SMITH and R.B. FADEN . . . . .	185
6. New records of pteridophytes from Annobón Island. E. FIGUEIREDO, A. GASCOIGNE & J.P. ROUX . . . .	213
7. Notes on African plants:	
Euphorbiaceae. A new species of succulent <i>Euphorbia</i> from southern Angola. P.V. BRUYNS . . . .	219
Hyacinthaceae. Nomenclatural corrections in Ornithogaloideae. J.C. MANNING. . . . .	221
Hyacinthaceae. <i>Drimia oliverorum</i> (Urgineoideae), a new species from southern Namibia. J.C. MANNING and E.G.H. OLIVER . . . . .	225
Hyacinthaceae. <i>Pseudogaltonia liliiflora</i> (Ornithogaloideae), a new species from the Richtersveld, Northern Cape. J.C. MANNING, P. GOLDBLATT and G. WILLIAMSON . . . . .	229
Hyacinthaceae. A new subspecies of <i>Pseudoprospero firmifolium</i> (Hyacinthoideae) from KwaZulu-Natal. J.C. MANNING, D.G.A. STYLES and N.R. CROUCH . . . . .	231
Hyacinthaceae. A new species of <i>Drimia</i> (Urgineoideae) from the Knersvlakte, Western Cape, South Africa. D.A. SNIJMAN and A.D. HARROWER . . . . .	233
Mimosaceae. A new species of <i>Acacia</i> from northern Mozambique. J.E. BURROWS and S.M. BURROWS . . . . .	222
Poaceae. A new subspecies of <i>Trichoneura eleusinoides</i> (Eragrostideae) and two new species of <i>Panicum</i> (Panicoideae–Paniceae) from South Africa. L. FISH . . . . .	237
Pteridophyta. Otto Kuntze’s lycopod and fern collections from South Africa. J.P. ROUX . . . . .	227
Ranunculaceae. The genus <i>Knowltonia</i> subsumed within <i>Anemone</i> . J.C. MANNING, P. GOLDBLATT and S.B. HOOT . . . . .	217
8. South African National Biodiversity Institute: publications 1 January 2008–31 December 2008. Compiler: B.A. MOMBERG . . . . .	241
9. Guide for authors to <i>Bothalia</i> . . . . .	247
